

## Notes

### Wire set

X8 120 cm.  
X8 60 cm.  
X8 20 cm.

### Switch mode button

We are thinking that if a button could put the device in a server mode in order that you could connect to it and setup for example the IP and port for the OSC communication to receive the vibration mode (more explanations if you need)

### Amount of devices

We are thought to start with 2 units
